**Refugee:** Any person who is outside his or her country of nationality and who is unable or unwilling to return to that country because of persecution or a well-founded fear of persecution. Persecution or the fear thereof may be based on the alien's race, religion, nationality, membership in a particular social group, or political opinion. People with no nationality must be outside their country of last habitual residence to qualify as a refugee.

**Asylees:** An asylee also meet the definition of "refugee" in the INS. However, asylees are individuals, who, on their own, travel to the United States, apply for and receive a grant of asylum.

## SECTION TWO

# *State of Georgia*

*Adjusted Demographic  
Data: Census 2002*

**DIVERSITY:** Growing Presence of  
Latinos & Ethnic Groups in Georgia

## Delivery of Human Services to Latino Populations

**The Latino population** now affects the private, public and non-profit sectors at all levels, and shares its cultures and successes with mainstream America. The “Latino impact” affects human services throughout Georgia and will continue to do so. The cultural differences between Latinos and non-Latinos present both problems and opportunities for human service agencies. We must match needs and assets in order to effectively market services to this growing segment of Georgia’s population.

### Latino Market Segment

Each category of customer/client has particular service needs depending on the level of assimilation. The newer generation of Latino arrivals may have limited English proficiency and other difficulties arising from cultural differences and economic status.

- legal immigrants
- alien workers
- undocumented workers
- refugees
- citizens

### Top Migration Destinations for International & Domestic Immigrants

#### Domestic

### **Social service challenges in a diverse Georgia:**

Many Latinos come to Georgia on the advice of friends or relatives who passed along the word of jobs in carpet mills, poultry plants, construction, landscaping, farming, hospitality and retail food service. Moving to a new country means dealing with the problems of language and cultural barriers. Too often we read about businesses which exploit Latino employees by not paying them or landlords who charge exorbitant rents for shabby housing. The surge in Georgia's immigrant population also has created the need for local governments to take notice of the economic contributions being made by Latino workers with little or no access to government services in urban and rural areas.

### **Who are these Latinos - Quien Son Estos Latinos?**

In 2002, Georgia's Latino population was adjusted to 454,360. However, this is still an undercount. We estimate that there are 20 sub-cultures and nationalities/ethnic origins from the following Latin American regions:

- Mexico (60%)
- Central America (10%)
- South America (10%)
- The Caribbean (10%)
- Hispanic American/US Born (5%)

### **Latino Labor Force:**

The Latino workforce is composed of professional and semi-professional people working with large corporations; migrant farm workers; students enrolled in technical schools, universities and colleges; workers in hospitals and clinics, state and federal government agencies; and in the military and as diplomats. Georgia has a large number of Latino owned businesses. The greatest labor impact is the Latino presence in carpet mills, poultry plants, agricultural farming, service industries, construction sites, and the hotel and restaurant industry.

### **International Student Population:**

Latino students from Spanish countries, including Venezuela, Colombia, Mexico and Puerto Rico, attend many of the public and private colleges and universities in Georgia.

### **Where Latinos Live**

Latinos live in all 159 counties of Georgia. This emerging group is radically changing the face of Georgia and, as a result, is affecting country-administered human services.

## **How to Reach Latinos - Como Alianza Latinos**

**Latin-Americans** come from different countries and backgrounds, but they share one common thing – pride! Pride in native culture, language, traditions and pride in being a **Latino**.

### **Affordable Hispanic Media Outlets:**

In metro Atlanta, Gainesville, Newnan, Savannah and Dalton, you can advertise in Spanish language newspapers and magazines whose readers are Latino. Spanish language radio is also found in the metro Atlanta area and in Gainesville and Dalton.

Cable television carries Spanish language network programs to many homes throughout Georgia. Many non-profit cultural, business and civic organizations can use these outlets to inform the Latino community about cultural, business, educational and sport events in most areas.

Community involvement is the key to reaching the Latino population of Georgia. Many social and cultural events offer automatic tie-ins for healthcare and social services programs to this growing group of Spanish-speaking consumers.
